BA in History Academic Map
2026-2027

History encompasses all aspects of past human endeavors. It encourages students to think broadly and to integrate all of their knowledge into a meaningful whole. From history a person develops a better understanding of current events and a better appreciation of art, architecture, ideas, politics, and fellow human beings and their activities. It also provides a guide for the future. Students planning any career could benefit from majoring or minoring in history. History is an interest that students may retain for life.
