BA in History with Secondary Education Certification Academic Map 2026-2027

History encompasses all aspects of past human endeavors. It encourages students to think broadly and to integrate all of their knowledge into a meaningful whole. From history a person develops a better understanding of current events and a better appreciation of art, architecture, ideas, politics, and fellow human beings and their activities. Earning Secondary Teacher Certification allows the transference of this understanding and appreciation to future generations of students grades 7-12.
