

WHAT'S YOUR MAJOR?

NAME: Taylor-Irene

MAJOR: French

CLASSIFICATION: Junior

TELL THE STORY OF HOW YOU FOUND THIS MAJOR:

I chose my major because I love French and have since I was little! My mom is French speaking, so I grew up hearing it and my French teacher in high school is still one of the most important people to me that I've met throughout my education.

WHAT TIPS DO YOU HAVE FOR FIRST-YEAR STUDENTS:

It's okay to change your major! I was originally majoring in something completely different because I thought it would lead me to a profitable career, but then I realized that it wasn't a career that I wanted and that my heart lay somewhere else. The biggest piece of advice I have is that you should love what you're doing. I love being a French major, I am excited to go to class, and be involved in my department. It's important when choosing your major to consider that the things you love to learn about can also offer a profitable career!
