

WHAT'S YOUR MAJOR?

NAME: Tabitha

MAJOR: Integrative Studies (Focused in BIOL, PSYC, and HDFs) with a minor in Spanish

CLASSIFICATION: Junior

TELL THE STORY OF HOW YOU FOUND THIS MAJOR:

Coming in to college, I knew that I wanted to pursue Physician's Assistant School after finishing my undergraduate, and looking at the pre-requisites, there were more than just biology or chemistry classes required. When I found out about Integrative studies, I knew it was for me because it allowed me to get all of my prerequisites and have them count toward my degree. I'm also able to pursue more classes in other areas that interest me, and become a more well-rounded student and eventual PA school applicant!

WHAT TIPS DO YOU HAVE FOR FIRST-YEAR STUDENTS:

It is so, so important to use your resources. There won't be any other time in your life that so much is offered for you, so go to your advisors, look into workshops or tutoring centers, and do everything that you can while you can! UNT doesn't only offer advisors in your college, but also career advisors who can help you make plans past college. Advisors are for much more than setting up schedules, so let them help you!
