

WHAT'S YOUR MAJOR?

NAME: Jada

MAJOR: Psychology with minors in LGBTQ Studies & Women's and Gender Studies

CLASSIFICATION: Junior

TELL THE STORY OF HOW YOU FOUND THIS MAJOR:

I've wanted to be a therapist since I was a kid, but I really enjoyed being in my AP Biology class in high school. So originally I was a Biology major but quickly changed it to Psyc and I'm very happy with my choice.

WHAT TIPS DO YOU HAVE FOR FIRST-YEAR STUDENTS:

It's ok to feel a bit overwhelmed but don't tie up your self-worth in with your work. It's likely that if you feel confident in your abilities then your work will reflect that not the other way around.
