

WHAT'S YOUR MAJOR?

NAME: Jahnavi

MAJOR: Psychology

CLASSIFICATION: Sophomore

TELL THE STORY OF HOW YOU FOUND THIS MAJOR:

The story of how I ended up as a psychology major is a little different. During my senior year of high school, I wanted to study AP psychology to see if I would like to major in psychology as a college student or not. Although, because of the transition to online school, my school switched out AP psychology for fashion marketing. I figured I might as well pick psychology as my major since I knew I could always change it if I didn't like it in the future. So far, I've enjoyed studying psychology, so I hope I can keep psychology as my major for the rest of my college career.

WHAT TIPS DO YOU HAVE FOR FIRST-YEAR STUDENTS:

Ask questions! Beginning from orientation to the start of your first semester on campus, you will be receiving a lot of new information. It's important to ask as many questions as possible to understand the various resources available to you on campus. If you're feeling stuck and need help with something, reach out. Take the time to talk to people on campus and initiate conversations. Who knows, you may meet your college best friend this way. Plus, continuing students you meet and interact with can be excellent resources to aid your college journey. Take the time to explore campus and familiarize yourself with study spots and places for alone time. Last but not least, challenge yourself and enjoy the ride!
