

WHAT'S YOUR MAJOR?

NAME: Kaltrina

MAJOR: Psychology with a minor in Addiction Studies

CLASSIFICATION: Freshman

TELL THE STORY OF HOW YOU FOUND THIS MAJOR:

I chose to major in psychology because I've always been fascinated with it and I wanted to major in something that I actually enjoyed learning about. I have aspirations of becoming a surgical physician assistant but I didn't want to major in something like Biology or Chemistry so I went with Psychology.

WHAT TIPS DO YOU HAVE FOR FIRST-YEAR STUDENTS:

Make a schedule and stick to it. Time management is probably the most crucial skill you need to have to do well in school. Don't be intimidated by misconceptions that college is super hard and that you have to study 24/7.
