

WHAT'S YOUR MAJOR?

NAME: Mykadariela

MAJOR: Theatre Performance with minor in Political Science

CLASSIFICATION: Freshmen

TELL THE STORY OF HOW YOU FOUND THIS MAJOR:

It actually took me while to realize that Acting was something I definitely wanted to do. The first major I chose was advertising because it's a combination of art and business which I thought was beneficial since acting wouldn't make enough money and I had that pressure from my parents. After I started college as a freshman in 2019, I wasn't fully invested in my career choice and my life coach had already told me that I should choose whatever it is that I want to do with my life for me. About thirty percent of college students change their career choice and yes I was part of that 30%. So I dropped out from that college and started working and applying to different colleges all over again. Now, I knew exactly what I wanted and it was acting. As much as I was trying to get away from it, I couldn't see myself living a life where I wasn't happy with that I was doing. Two of my main passions are acting and politics, hence my minor in political science. UNT provides what I believe are the best programs for acting in Texas which is why I decided to attend UNT

WHAT TIPS DO YOU HAVE FOR FIRST-YEAR STUDENTS:

Since I'm technically also a first-year student, I would recommend managing your time in the most efficient way possible and to not measure a good day with amount of productivity. Because just how you allow yourself to have fun and put an end to it, it should be the same with productivity and giving yourself a break so you don't overwhelm yourself. Also, studying for an exam is more important than hanging out with friends and they're truly your friends they'll definitely understand.
