

WHAT'S YOUR MAJOR?

NAME: Lydia

MAJOR: Psychology Major with Biology Minor

CLASSIFICATION: Junior

TELL THE STORY OF HOW YOU FOUND THIS MAJOR:

I originally entered college as a Media Arts major, but after spending some time on set for one of the shows airing at the UNT TV station, I decided that it wasn't for me. I thought back to my high school psychology class and figured that it was something that greatly interested me, and something that I was good at. I have always been a science minded person, so the scientific side of psychology appealed to me greatly.

WHAT TIPS DO YOU HAVE FOR FIRST-YEAR STUDENTS:

Figuring out where you want to be when you graduate is important, but enjoy college while you do it. Even if you don't know what you want to do out of college, that's ok. There are plenty of flexible majors that allow for plenty of career options. Picking something you enjoy is important, and if you still need to get your basics done, there is time still to decide whether you want to stick with that major or not.
