

WHAT'S YOUR MAJOR?

NAME: Shelby

MAJOR: English with minors in History and Spanish

CLASSIFICATION: Junior

TELL THE STORY OF HOW YOU FOUND THIS MAJOR:

I realized in late high school that what I really had a knack for was editing, and, hey, that's a solid occupation. Lots of career opportunities. My three favorite subjects in high school were English, Art (which you can't get a career in) and Biology (in which your two career options are research or medicine, and I wasn't interested in messing with research and was even less interested in messing with medicine.) Also, during orientation, I realized that an English degree would let me graduation only three years, and (at the time) I was interested in the grad track program.

WHAT TIPS DO YOU HAVE FOR FIRST-YEAR STUDENTS:

Try new things as early as you can so that you can get used to them. Most of the counselors are really great. Try and talk to your professors, they definitely want to meet with you. (Especially try and talk to them if you have papers due for them, it'll help you get a good grade if you know exactly what they're looking for.)
